

WINDOW GRAPHICS RANGE

www.ritrama.com

From OUR
RI PRINT
product line

The Ri Print product line for window graphics includes a variety of print media that can be used alone or together to create original and stand out window advertisements.

Promote your product with an opaque 2-way window graphic when you marry two of our products together. The Window Cal Clear when married to it's Window Cal Opaque creates a true eye-catching 2-way window graphic image.

Ritrama's window graphics range includes permanent, removable, ultra removable and solvent adhesives in order to meet your indoor or outdoor durability term. These products are compatible with various printing methods including solvent and eco-solvent ink jet.

Our print media is multi-purpose. The products below are also recommended for promotional applications including: point of purchase displays and trade show graphics among others.
