

Dear Alex Wing

Mr. Wing, what a GREAT product. We were shoveling off a 42,000 square foot building and doing it without the Snow Shute at first and getting nowhere fast. I went home after a long day and looked online I found the Snow Shute. After watching the video and seeing how it worked, I said I need these now. I called Mr. Wing and ordered five. With a storm pending and we very nervous of our roof collapsing Mr. Wing drove them out to us himself. What we got done in one hour with his product had taken us a day to remove by hand without them. I saved two thousand dollars in labor using the Snow Shute. I have taken on more roof snow removal jobs and have made a lot of money with the Snow Shute. I would highly recommend this product to homeowners as well as the commercial property owners and roofers. We sent down over 350,000 pounds of snow down the Snow Shute's we ordered and they still work like the day we got them. Thanks again Mr. Wing you have a customer for life!!!!
