**LEARN HOW YOUR COMPANY CAN BENEFIT  
WHILE SUPPORTING A LOCAL NON-PROFIT.**

In order to raise money for our mission, we offer a service called "Kitchen Recovery" where a professional, fully insured team of volunteers removes old kitchen cabinetry and appliances during a home remodeling. By allowing our team to work with you, as a contractor, you will be saving money in labor costs and disposal fees which enables you to provide a more competitive price to your customers. Donations of materials are tax deductible.

**Community Toolbox** is a nonprofit organization in the greater Seacoast NH region that believes that everyone deserves to live in a safe and healthy home. This belief fuels our "Fix-It Program" that allow us to help qualifying individuals in our community. Within this program our team of professional and certified contractors make various repairs to ensure these individuals can be safe in their home.
